# GENERAL INFORMATION

---

# SAFETY MESSAGES

The types of safety messages, what they look like and how they are used in this guide are explained as follows:

The safety alert symbol  indicates a potential injury hazard.

## **WARNING**

Indicates a potential hazard which, if not avoided, could result in serious injury or death.

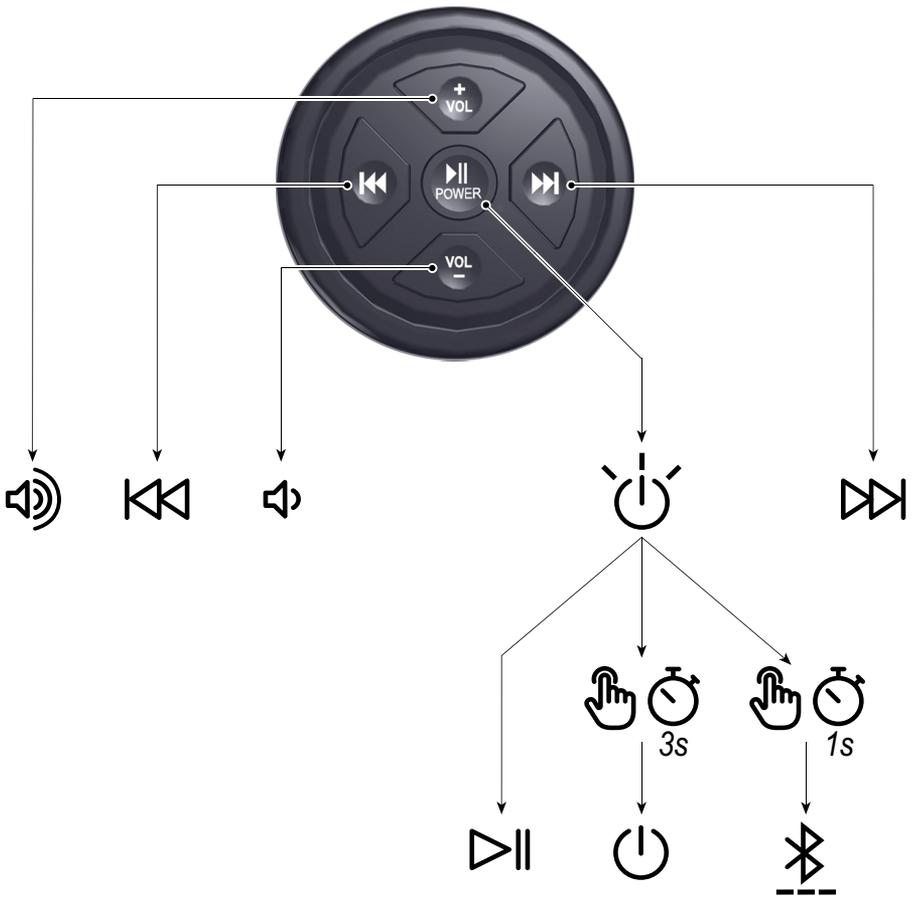

## **CAUTION**

Indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

## **NOTICE**

Indicates an instruction which, if not followed, could result in severely damaged vehicle components or other property.

# HOW TO USE

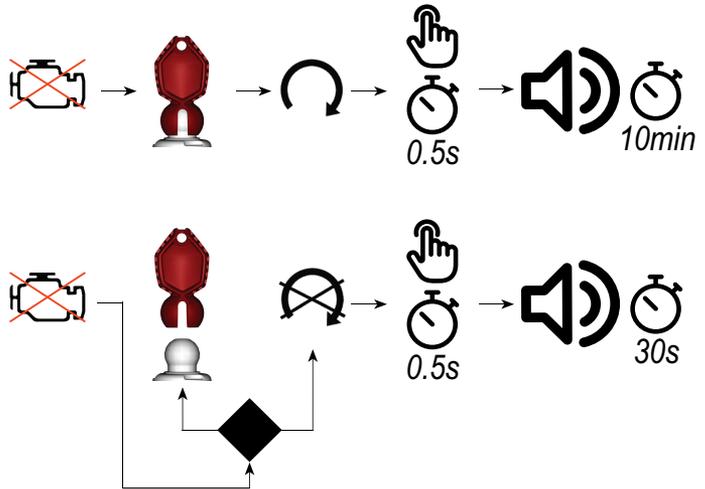

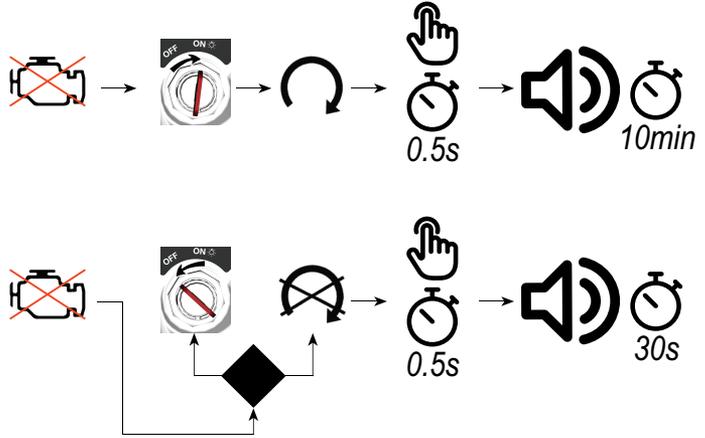

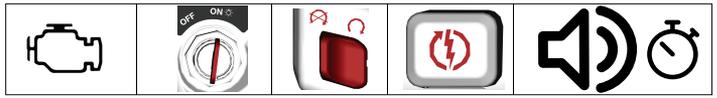

## **⚠ WARNING**

Using a smartphone or trying to pair a device while driving can distract the driver from operating the vehicle. Always use buttons with caution and always stay alert while driving, keeping eye contact with your environment at all times.

## **⚠ CAUTION**

Prolonged exposition to loud music can damage your hearing. Therefore, we suggest a 10 minutes break time every 45 minutes of listening.

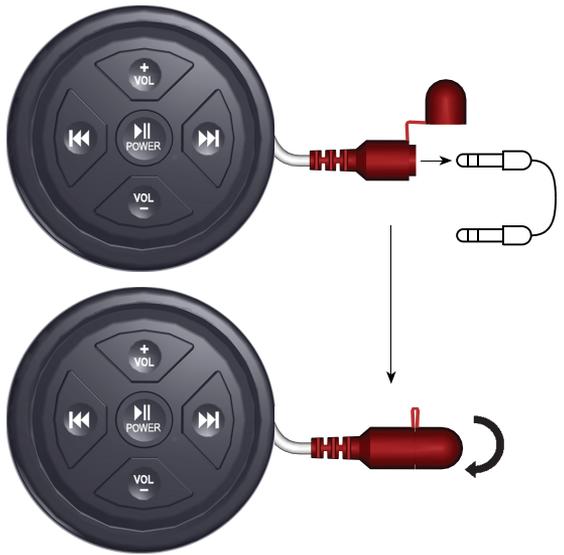

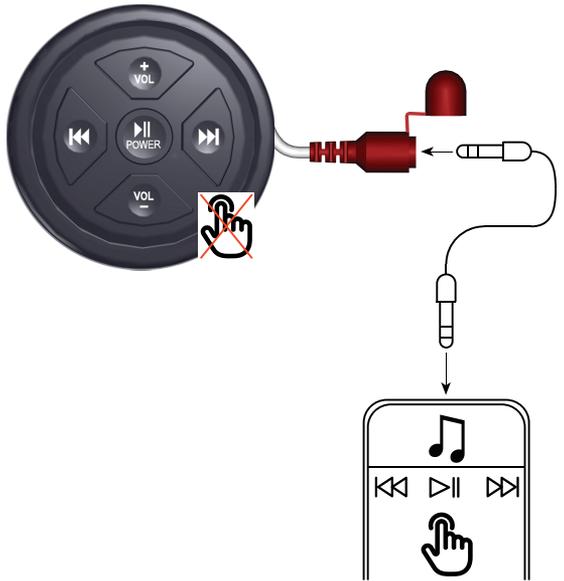

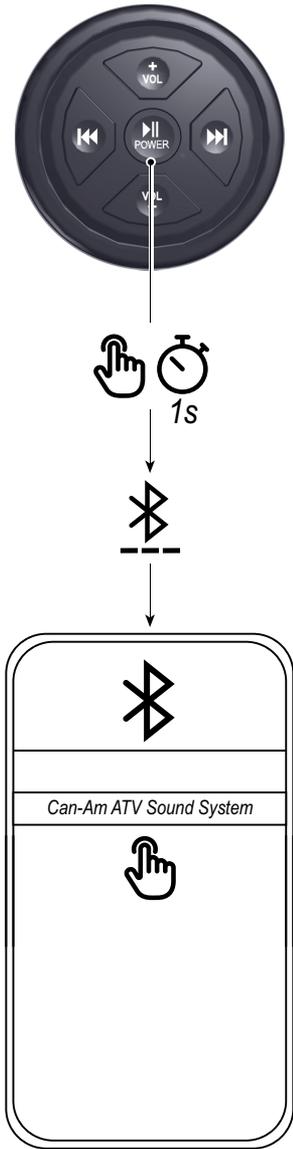

**NOTE:** We recommend you use 320 Kbps MP3 – 192-256 Kbps AAC or AIFF, WAV formats to match the potential of the speakers. More compressed formats will probably have degraded sound quality.

**NOTICE**

Prolonged use of electrical accessories with the engine off will drain the battery.

### Auxiliary Cable Connection

**NOTE:** The Bluetooth connection has priority over the auxiliary one. If two devices are connected at the same time, only the one connected via Bluetooth will play its audio, even if both devices are playing audio. In the event that the Bluetooth connected device stops playing audio, the auxiliary connected device will start playing its own audio as long as the first device does not start playing audio again.

# COMPLIANCE INFORMATION

---

# INTEGRATED AUDIO SYSTEM REGULATORY INFORMATION

## US FCC

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation of the device.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm (8 in) between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC ID: 2AAOY-715005354

## ISED Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS (s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

IC: 22793-715005354

CAN ICES-003 (B) / NMB-003 (B)

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement Économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et

(2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement doit être installé et utilisé à une distance minimale de 20 cm (8 in) entre le radiateur et votre corps.

IC: 22793-715005354

CAN ICES-003 (B) / NMB-003 (B)

## WEEE Dir. / REG

## EN

This symbol on the product and / or accompanying documents means that used electrical and electronic equipment should not be mixed with general household waste. For proper treatment, recovery and recycling, please take this product to an appropriate collection point.

## Brazil ANATEL
